CITY COMMISSION

Dear Commissioner Rogers:

**SUBJECT: Central Broward East-West Transit Analysis
Draft Environmental Impact Statement
Route & Vehicle Choices Additional Workshop**

The Florida Department of Transportation (FDOT) is conducting an additional public workshop for the Environmental Impact Statement (EIS) on the Central Broward East-West Transit Analysis in Broward County, Florida. This public workshop is scheduled for:

Wednesday, December 2, 2009
6:00 p.m. to 8:00 p.m., presentation at 6:30 p.m.
City of Lauderdale Lakes City Hall, Multipurpose Auditorium
4300 N.W. 36 Street, Lauderdale Lakes, FL 33319

In addition to this workshop, the presentation is available on line at:
www.centralbrowardtransit.com/choices

The purpose of this study is to provide high-quality, high-capacity transit service on an east-west axis in central Broward County to connect the developing western side of the county to the denser coastal area. These workshops are necessary to aid in project development and will serve to: 1) present the initial results for both routes (alignments) and vehicles (transit technologies); 2) identify proposed options to continue into the detailed environmental impact study; and 3) obtain feedback from stakeholders and the public in regard to the proposed options.

More information is available on the project website: www.centralbrowardtransit.com. If you have any questions prior to the meeting, please feel free to contact:

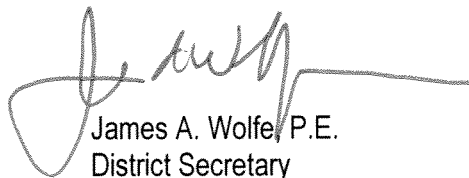

Ms. Khalilah Ffrench, Florida Department of Transportation
